AKEEM AKKANI-OLA

Software Engineer | Mobile App Developer | AI/ML Enthusiast

Phone: +234 807 729 3849 | Email: olamideakeem3@gmail.com | GitHub | Portfolio | LinkedIn

PROFESSIONAL SUMMARY

Results-oriented Software Engineer with 4+ years of experience specializing in mobile and web application development (Native & Hybrid ecosystems). Proven track record of architecting scalable applications, implementing complex enterprise-grade features, and deploying monetized assets to production. Currently pursuing an MSc in Software Engineering with research focused on computational development methodologies. Passionate about integrating AI/ML models to build resilient, user-centric solutions.

TECHNICAL SKILLS

- **Languages:** Kotlin, Python, JavaScript (ES6+), TypeScript.
- **Mobile Frameworks & Frontend:** Android SDK (Native), React Native, React.js, XML, HTML5/CSS3.
- **Backend & Database:** Firebase, RESTful APIs, Relational & Non-Relational Databases.
- **Tools & DevOps:** Git/GitHub Enterprise, Google Play Console, AdMob, CI/CD (GitHub Actions), VS Code, Figma.

PROFESSIONAL EXPERIENCE

Intermediate Mobile Developer

Novac Payment Solutions Remote (Lagos, Nigeria) ***Apr 2026 – Present***

- Architect and scale hybrid mobile applications utilizing React Native CLI, adhering to strict enterprise-level code formatting and clean architecture paradigms.
- Drive the end-to-end development of advanced mobile features and security modules, optimizing state management and cross-platform component rendering for seamless API integration.
- Optimized code management workflows by establishing structured GitHub workflows, improving code review efficiency and cross-team collaboration.

Founder & Lead Android Engineer

Focus Lock App (Product & Open Source) Ibadan, Nigeria ***Dec 2025 – Present***

- Designed, developed, and deployed a native Android productivity application to the Google Play Store, handling the complete lifecycle from UI layout to background logic.
- Engineered robust OS-level background services and custom Overlay Permission logic to systematically manage device-level focus states.
- Resolved critical compatibility issues on aggressive device battery-saver OS variants (HiOS/XOS), stabilizing performance for Tecno and Infinix devices.
- Deployed a high-priority v1.4 hotfix within 48 hours to resolve a critical UI failure, successfully recovering 50% of the active user base.
- Implemented Google AdMob with verified app-ads.txt integration, managing Play Console Data Safety compliance and achieving a 100% ad match rate.

Full-Stack & Mobile Engineer

Freelance & Independent Projects Remote ***Jan 2024 – Apr 2026***

- Developed 10+ responsive applications and web platforms spanning healthcare, fashion, and commercial ecosystems using React.
- Accelerated delivery timelines by 25% across client projects through the architectural design of reusable UI component libraries.

Frontend Developer & DevOps Engineer

Timeline Digitals Ibadan, Nigeria ***Dec 2020 – Apr 2023***

- Translated high-fidelity Figma wireframes into production-ready React.js dashboards, executing frontend optimization strategies that slashed page load times by 35%.
- Automated deployment cycles by configuring CI/CD pipelines via GitHub Actions, increasing deployment speed by 60% and reducing manual integration errors.

Founder & Technical Lead

Huncho Farms Ibadan, Nigeria ***Mar 2018 – Dec 2023***

- Designed and built an internal Node.js and React-based inventory and operations management system.
- Streamlined daily agribusiness operations, reducing internal data entry errors by 70% through automated data validation pipelines.

Junior Technical Support Engineer

Convert.NG (Remote Lagos) ***Apr 2020 – Oct 2020***

- Provided Tier 1 and Tier 2 technical infrastructure support during high-traffic operational periods, troubleshooting frontend anomalies to protect user retention metrics.

EDUCATION

- MSc in Software Engineering | Lead City University, Ibadan
    - *Expected: Mid-2026*
    - *Research & Focus:* Advanced Software Architecture, Agile Methodologies, Systems Design, Computational Development Frameworks.
- Professional Certification in AI & ML | SQI College of ICT, Ibadan
    - *Expected: Jul 2026*
    - *Focus:* Data Science, Deep Learning, Python for ML, Neural Networks.
- BSc in Computer and Information Science | Lead City University, Ibadan
    - *Graduated: Dec 2020*
    - *Classification:* Second Class Upper | CGPA: 4.04/5.0.

CERTIFICATIONS

- ALX Nigeria Professional Foundation *(Aug 2025)*
- Artificial Intelligence & Research Training – Grant Writing Workshop *(Nov 2024)*
- Python Programming – New Horizons Computer Learning Centers *(Jul 2019)*
- Fundamentals of Digital Marketing – Google Digital Skills for Africa *(Nov 2019)*
